

# **PROPEL CHARTER SCHOOLS**

**BID ADDENDUM: December 4<sup>th</sup>, 2007**

**POSTED BID #0014: NETWORK CABLING SERVICES**

## **NARRATIVE:**

Propel Charter Schools has posted a 470 Application and Bid for Network cabling services (on website...Bid #0014) to address the needs of its Homestead School location. This bid addendum is to identify the needs for voice cabling to be addressed via the scope of deliverables outlined within the Bid. All services and components are E-rate eligible and funding will be requested accordingly.

## **DETAILS:**

**In addition to all items identified within the original Bid the following requirements and corresponding services must be included within the respondent's bid response:**

- **ADDENDUM Item A:** A 25-Pair twisted-pair copper "Voice" cable must be run from every new & existing IDF network rack down to the main MDF network rack.
  - o Each 25-Pair twisted-pair copper "Voice" cable must be terminated on a 66 Block which must be located next to the IDF network racks.
  - o Each 66 Block located at the MDF network closet coming from a corresponding IDF run of 25-pair twisted-pair copper cable must be labeled identifying the IDF closet location it is servicing.
- **ADDENDUM Item B:** A 50-Pair twisted-pair copper "Voice" cable must be run from the main MDF network rack to the building's Demarque and terminated in a Block/s accordingly.
  - o The 66 Block located at the MDF network closet going to the Demarque must be labeled identifying it as the Main Demarque trunk. (any extra twisted pairs after filling the 66 Block can be rolled up for future use)
- **ADDENDUM Item C:** All cables, terminations and components are to be tested and managed neatly in each location.
