

Backpack Feeding Program

At Propel Schools, we understand that proper nutrition is critical to a child’s development. It impacts their mental health, physical health, academic achievement and their future economic prosperity.

We want all of our students to reach their full potential, both inside and outside of the classroom. That is why we are expanding our backpack feeding program to all 8 of our elementary schools!

Each Friday, backpacks are distributed to qualifying students containing 3 breakfasts (i.e cereal bars, bowl of cereal), 3 lunches (i.e. can of Raviolis) , 3 snacks (i.e. turkey jerky) and 3 pieces of fresh fruit.

To become a part of the backpack feeding program you must qualify for the free and reduced lunch program at your local school or after school program. Please complete the application below to be considered for the program. There is limited space available for the program so please fill out and return this portion of the application as soon as possible. You will be notified if accepted into the program. Please note applications will be accepted in the order they are received.
