III. INTRODUCTION to Propel High Schools

The purpose of this handbook is to describe the requirements and expectations for all students who attend Propel High Schools. As such, the holistic academic approach, community standards, and discipline is outlined. This document is meant to ensure that all students and parents are aware of the requirements and expectations of Propel High Schools.

School-wide discipline and restorative practices are an integral part of teaching and learning. Young people must develop good work habits and mindsets if they are to be successful students and become successful members of the larger community. Because one of the primary goals of Propel is to promote constructive and respectful behavior, the procedures and consequences described in this Handbook are designed to modify unacceptable behavior, not to punish.

Propel Schools Board of Trustees has authorized the school administration to make reasonable and necessary rules and procedures for guiding student and family conduct. The intent of the rules, procedures, and consequences that follow explain how students and families will be held accountable for their behavior and the possible procedures for restoring positive behavior.

PROPEL HIGH SCHOOLS

Propel high schools are dedicated to achieving post-secondary success for all of students. Through deeper learning, student empowerment, and unique opportunities, students are prepared to go into college and career training. We are committed to meeting the following goals:

- 100% graduation rate
- 100% of students graduate with a reviewed and approved post-secondary plan
- 100% college acceptance rate
- 100% of students attend either college or career training after graduation

COMMUNITY VALUES

Each high school has a specific set of community values that seek to build the habits and mindsets that students need to be successful in high school and beyond Propel. Though the specific habits vary at each school, all habits include the following concepts:

- Being engaged and prepared
- Treating self and others with respect
- Demonstrating self-discipline
- Offering compassion and empathy

IV. ACADEMICS

OVERALL APPROACH

- Deeper Learning: Learning in all classrooms emphasizes authentic, real-world learning experiences. Classrooms employ inquiry-based strategies while developing collaboration, critical thinking, communication, and creativity skills.
- Students are leaders of their own learning. Through citizenship, voice, and leadership, Propel High Schools instill confidence and critical engagement for students to interact within various communities. Students possess the agency to positively impact themselves and society. Self-reflection is a trait valued within our schools and beyond.
- Unique Opportunities: Propel Schools know that closing the achievement gap also includes closing the opportunity gap. Learning experiences extend well beyond the traditional

classroom. Students gain confidence and transferable knowledge by being pushed outside of their comfort zones. Through these opportunities Propel redefines school and our students defy expectation.

ACADEMIC CURRICULUM AND COURSE OF STUDY

The following outlines the recommended course of study for various content areas, consistent with the graduation requirements previously described. Each course has prerequisites, though some may include co-requisites, as described in each school’s Course Catalogue. Higher level math courses may be taken through Propel’s Dual Enrollment Program. These requirements will be in place for the graduating class of 2020.

GRADING SYSTEM AND PROMOTION REQUIREMENTS

Students earn points based on academic performance in all classes. Those points are converted into a percentage and then awarded a letter grade. The following is the grading scale:

- 100% - 90% - A
- 89% - 80% - B
- 79% - 70% - C
- 69% - 60% - D
- 59% - 0% - F

To receive credit for a course taken at a Propel High School, a student must earn a "C" or better. Additionally, all honors and Advanced Placement (AP) courses receive a weighted calculation in their GPA. The student must first earn a grade of a "C" or higher to gain credit. If a student does not earn this grade, whether in an honors or AP course, then the student will NOT earn credit for that class. However, the weighting of .5 will be calculated into the student's GPA for the honors/AP work.

For a student to be promoted to the next grade, they must have earned enough credits to be on track to graduate within the course of study offered at Propel Schools during the school day. It is important to understand that these promotion requirements are set based on the student passing all of their subsequent coursework with a complete schedule each year. It is also important to note that students will not be placed in concurrent classes if one is a prerequisite for the other.

A course that is failed must be recovered over the summer through either Propel Online Credit Recovery Program (with our own teachers) or a 3rd party credit recovery program. If a student wishes to double up on a certain subject in order to get ahead, the student will need parent, teacher, guidance counselor, and principal approval.

HONORS AND ADVANCED PLACEMENTS REQUIREMENTS

Students have the opportunity to take any core content class (Math, English, Social Studies, and Science) for honors credit. Students are required to register for honors credit during the add/drop period. Students may not add or drop the honors designation after that period has closed (typically within the first few weeks of school). The specific honors requirements will be outlined by the individual course. Honors classes may operate within core classes rather than through a separate section. All students who pass an honors class will receive an additional .5 addition in their GPA for that course. This bump is not reflected in the grade on the report card or transcript, but rather factored into the student's Grade Point Average. The .5 addition is omitted if the student does not earn a passing grade in the course.

Each school also offers an Advanced Placement (AP) Program. Every AP course is College-Board approved and counts for college credit at many colleges and universities if the student earns a score of 3 (and in some cases a 4) or higher on the end-of-course AP exam. AP Courses also receive a .5 addition to their GPA only for the AP course. This bump is not reflected in the grade on the report card or transcript, but rather factored into the student's Grade Point Average. The .5 addition is omitted if the student does not earn a passing grade in the course.

V. EMPOWERING STUDENTS

Students are leaders of their own learning. Through citizenship, voice, and leadership, Propel High Schools instill confidence and critical engagement for students to interact within various communities. Students possess the agency to positively impact themselves and society. Self-reflection is a trait valued within our schools and beyond.

CREW

CREW is a group of 10-15 students who meet daily. CREW serves as advisory program that addresses multiple purposes.

- ❑ The CREW Leader serves as a primary advocate and support for each student because we know the value of every student having a caring and compassionate adult to help students navigate school and life.
- ❑ The CREW Leader is the primary contact for families. Should you have any questions regarding your student's progress at school, please contact the CREW Leader first.
- ❑ CREW is a program that promotes social and emotional wellness through the principles of the circle of power and respect where students are encouraged to participate in courageous conversations on life and society.
- ❑ Each CREW focuses on post-secondary planning and preparation through a curriculum of college and career exploration.
- ❑ CREW Members gain a sense of community and active participation through a democratic-style curriculum.
- ❑ CREW Members receive academic and social support through regular check-ins, goal setting, and advising.
- ❑ Students are empowered through student-led conferences and passage portfolios that are planned and practices through CREW.
- ❑ Each CREW is responsible for carrying out an on-going service project collectively for purposes of service learning.

STUDENT LEADERSHIP AND STUDENT VOICE

Each school has a specific group of student leaders who work to co-create their school through democratic principles of participation, activism, voice, collaboration, citizenship, and tolerance. Through this group, students build their leadership and communication skills to create a strong school culture. The leaders plan school spirit activities and community-building events, participates in leadership training programs, and meets regularly with school leaders. The group plays an important role in developing High School programming as well.

PASSAGE PORTFOLIO PRESENTATIONS

Students are required to present their portfolios of work to a faculty panel at the end of 10th and 12th grades. Before they can present, all major assignments must be complete and meet grade-level standards. Each student selects one assignment or project from every academic subject and prepares a presentation about the process and skills they used for each one. Panel members ask questions about the strengths and weaknesses of each piece, and evaluate the student according to a rubric. Students who do not successfully complete the panel presentation have another chance to present, following more practice and reflection upon their work, but must pass in order to move on to the next grade.

10th Grade Portfolios: At the end of a student's 10th grade year, all students are required to make a presentation on their progress as a learner. The purpose is to empower students to become knowledgeable of the skills and content that they possess and the areas in which they need to grow. These presentations occur at the end of the year and are required for passage into an 11th grade CREW. The presentations demonstrate our value placed self-awareness, reflection,

and empowerment.

Senior Seminar and Senior Expedition Presentation: In Senior Seminar students will receive support in taking all the necessary steps that will lead to post-secondary success. All students will be required to apply to 3 colleges (even if they are not interested so their options are left open), complete a resume, develop a plan for beyond Propel, and explore different opportunities like internships, apprenticeships, and other fieldwork training. The Senior Capstone Presentation will encompass much of this work, including significant fieldwork research and academic research on a topic that the student would like to explore in the future. Much of the class will be dedicated to making sure that students are getting the support to make progress on this rigorous presentation. The purpose of the presentation is help students become independent in their work ethic, while preparing them for the challenges that await them after high school. These two additions to our program will help create a bridge to possibilities after high school that will help students be prepared and passionate for whatever their next step may be. For additional information on this requirement, please see the Senior Seminar and Expedition Handbook.

STUDENT-LED CONFERENCES

High School students and parents are required to attend three conferences with their CREW Leader over the course of the school year, typically in August, November, and February. Please see the School Calendar for the actual dates. Parents are notified a few weeks prior to each conference of time slots and asked to sign up in advance for a conference time.

- ❑ In the August conference, parents meet their child's CREW Leader. Initial introductions are followed by a review of the Student and Parent Handbook. Students and parents commit to uphold the Propel's rules by signing the Student and Family Handbook agreement.
- ❑ In the November and February students lead the conference. Students shares initial assessments, discusses particular strengths and weaknesses, and shares their academic and social learning goals for the school year. A short progress report with information about the student's habits of work, academic performance, and social skills is also distributed in addition to all other data points such as discipline and attendance reports.
- ❑ If needed, a conference will be held in April for any students who may have academic concerns that may require summer school.

It is required that each High School student attends all conferences. Students must attend each conference, along with your parent or guardian, or the conference must be rescheduled. If a conference is not attended, the student risks losing credit for his or her CREW class.

SERVICE LEARNING

The purpose of service learning is to create learning experiences that teach civic responsibility and strengthen communities. Students complete a variety of service learning components throughout their high school years with Propel, both within and outside of the school day. In order to graduate with a Propel diploma, each student must complete 100 hours of community service that is logged and approved by the school. When community service is completed, the contact of the service completed must sign off on the Propel Community Service form. There is both a single-use community service form and an on-going community service form. Signed forms must be turned into the student's CREW Leader who works in conjunction with the school counselor to track the hours. These hours will be updated and shared at student-led conferences to ensure that students are making progress to this graduation requirement.

VI. UNIQUE OPPORTUNITIES

Propel Schools know that closing the achievement gap also includes closing the opportunity gap. Learning experiences extend well beyond the traditional classroom. Students gain confidence and transferable knowledge by being pushed outside of their comfort zones. Through these opportunities Propel redefines school and our students defy expectations.

BEYOND PROPEL COMMITMENTS

Beyond Propel is a program that serves all students in Propel High Schools. The program's purpose is to not only ensure that students are prepared to be successful when they leave Propel, but to support success through paths that students choose beyond Propel.

DUAL ENROLLMENT

High School students at Propel Schools have the opportunity for dual enrollment status. Students attend courses offered by local colleges and universities during the regular day to attain college credit. Dual Enrollment requirements involve a student being in good academic standing and demonstrate the ability to balance both their regular high school course-load with their college course(s).

CAREER COHORTS

The goal of this program is to expose students to various career fields. Each cohort will consist of a variety of experiences both during the school day and outside of the school day that build their exposure, knowledge, and career training in various fields. The program will be open to 11th and 12th graders and focus on creating a variety of professional experiences that lead to student empowerment.

STUDENT ENTERPRISE PROGRAM

Each of the high schools focus on various student enterprises that look to build business acumen, confidence, and real life application to teach students how to take an idea and turn it into a money-making enterprise. There are a variety of these enterprises that have been developed over the years, from beekeeping/honey business to a creating a coffee shop. There will be a new set of enterprises planned for 2018/2019 with added staff to support the program. Through this program we seek to partner with local artists, entrepreneurs, and business experts.

rites of passage

As part of the Propel High School Program, we value having students get outside of their comfort zone and take calculated risk and accomplish what they thought was impossible. These rites of passages are specifically designed and implemented by each school and grade-level team. They vary from adventure trips to passage portfolios to traditions in which students are expected to participate, by being a member of that class.

VII. Discipline Overview

School Wide Behavior Support Plan

Propel has developed a school wide behavior support plan designed to encourage positive and productive behaviors and handle relatively minor infractions in a consistent and fair manner with a constant goal of returning the student to active engagement in the classroom and teaching them how to behave in a manner that meets the expectations.

Guidelines

The following serves as a framework for behavior expectations throughout the school and at school sponsored events (reference the *Sports Handbook* for participation and behavioral requirements). Additional rules and expectations may be established in each area (acting responsibly, being prepared, etc.) by school staff to guide student behavior in classrooms and elsewhere in the school. Each Propel School has a specific School Wide Behavior Support Plan that outlines the process and alignment of school-wide discipline and restoration. XII. Family Expectations for Resolving School Concerns

Propel's mission and vision is to provide a high-quality educational experience to all students. As we strive to redefine school and defy expectations, we count on our families to be our partners in

education. Together, we will overcome challenges and celebrate student success.

Should a family feel a need to make an inquiry of a Propel School, we want to be sure that all stakeholders are using the most effective avenues of communication. This ensures that your concerns will be given the time, attention, and consideration necessary for solution-based outcomes.

How do I advocate for my student?

I. Define the issue.

Talk with your student to assure that you have a clear understanding of the situation (academic, behavioral or administrative.) Work together with your student to identify specific elements such as the names of parties involved and the timeline of events.

II. Review Propel's guidelines.

Review the Student and Family Handbook, policies, student code of conduct and administrative procedures to help you clarify the issue at hand.

III. Communicate the issue.

Once you have clearly outlined the issue and decided if a specific policy may have been violated, it is time to communicate your concerns to the appropriate individual. By utilizing Propel's 'Chain of Command' protocol, start by reaching out to the initial contact on the list. By skipping this step, it may take a longer time to address your concerns, as information will have to be given to and received from the initial contact by those farther along the 'Chain of Command.' Be sure to document your communication efforts by detailing such items as the date, time, contact and content of conversations that take place by telephone or in person. Save all email threads that relate to the issues at hand. This will allow all stakeholders to be in alignment if an issue moves to the next 'Chain of Command' level.

Social Media/Multimedia and Schools - Good Practices For All Stakeholders

For many of us, social media usage is a part of everyday life. Social media can provide wonderful opportunities for families to connect with friends and loved ones. Unfortunately, we also see that social media can be utilized in negative, harmful and destructive ways.

As adults, we have the opportunity to set a positive example for students when we interact with social media. All parents and families are invited to join Propel staff in setting this good example.

DO:

- Demonstrate courtesy and respect for school staff and other families/students when commenting/posting on social media
- Use appropriate language when discussing school
- Address issues or concerns regarding school directly with the school (using Propel's 'Chain of Command' protocol) rather than posting them on social media
- Share good news with school leadership so that students can be congratulated on their successes outside of school

DON'T:

- Use social networking sites to make derogatory comments about school staff or other

families/students

- Post photographs of other people's children without parental permission
- Feel obligated or compelled to address unsolicited inquiries from media or reporters
- Conduct school business via social networks

Propel promises to:

- Address all concerns brought to school leadership in a thoughtful, fact-based and timely manner.

XIII. Student Search Policy

School administration reserves the right to search a student, a locker, a bag, a person, or vehicle on

school property if the administration feels it is in the best interest of the safety of the school.

Propel provides lockers for storage of students' books, school materials and personal property. This policy is designed to establish guidelines for situations in which student lockers may be searched or inspected.

Procedures: School lockers are the property of Propel. Students have a limited expectation of privacy. Students are required to ensure that their lockers do not contain spoiled food items or beverages, or soiled clothing which may attract pests, create odors or cause unhealthy conditions. A student locker may be opened and inspected, with or without the consent of the student, whenever there are odors, pests, or other indications that a locker may contain these items or similarly unhealthy conditions.

- ❑ Lockers will not be used to store any substance or item that is prohibited by law, Propel policy or rules, or that presents a threat to the health, safety or welfare of Propel's community or property
- ❑ Propel may conduct without suspicion unannounced blanket or random searches of lockers in middle schools or high schools if school officials determine in good faith that a substantial problem is threatening the welfare or safety of students and staff and that blanket or random searches may help solve or eliminate the problem. Before such a search is conducted, Propel will take the following steps:
 - ❑ The Superintendent or his/her designee and the school principal will jointly approve the search.
 - ❑ The Superintendent or his/her designee and the school principal will determine the method and scope of the search. Blanket searches will include all lockers in a school or all lockers in a section of a school. Random searches will include only those lockers chosen at random without discretion of school officials. For example, searching every fourth locker in a school.
- The signature page at the end of this handbook serves as an acknowledgment of this policy. Failure or refusal to sign the acknowledgment will have no effect on Propel's right to search student lockers.
- ❑ Propel reserves the right to search a student's locker at any time based on reasonable suspicion for the purpose of determining whether the locker is being used improperly for the storage of contraband, drugs or controlled substances, illegal objects or anything that poses a threat to the school population.
- ❑ Inspections or searches may include but not be limited to the use of certified drug-sniffing dogs, metal detectors or any similar means or device used to protect the health, safety and welfare of the school population.
- ❑ The principal or designee will be present whenever a student locker is searched on the basis of reasonable suspicion or a cleanliness inspection. The principal or designated staff shall maintain written records of all occasions when a locker is searched or inspected. Such records shall include the reason(s) for the search/inspection, persons present, objects found and their disposition.
- ❑ The student will be notified and be given an opportunity to be present before an individual locker cleanliness inspection or search based on reasonable suspicion. If, however, Propel has reasonable suspicion that a locker contains something that poses a threat substance or an item that poses a threat to the health, safety or welfare of Propel's school population, the student locker may be searched without prior warning and without the student being present.
- ❑ A principal shall open a student locker on the request of law enforcement only upon presentation by the requesting officer of a duly authorized search warrant, or that the circumstances otherwise permit the search to be lawfully conducted in accordance with the standards applicable to law enforcement actions, or on the intelligent and voluntary consent of the student. School staff will not interfere with or obstruct searches initiated by law enforcement, but may assist when law enforcement officials have requested such assistance.

- ❑ The principal will be responsible for the safekeeping and proper disposition of any substance or item found in a student locker if such substance or item is prohibited by law, Propel policy or rules, or presents a threat to the health, safety or welfare of Propel's community or property. Confiscated substances or items may be used as evidence in a disciplinary hearing.
- ❑ Illegal or dangerous substances or items will be given to law enforcement officials.
- ❑ Students are responsible for the security of their lockers.
- ❑ Students, parents and staff will receive a copy of this policy annually per the Student and Family Handbook and via the school website.
- ❑ The Superintendent or his/her designee will develop procedures to implement this policy.

XIV. Student Network Internet Policy

The Propel Charter Schools and community have developed the Propel Charter Schools computer network for instructional use. All files on the network are considered property of Propel Charter Schools, and subject to normal review and maintenance procedures. The use of the Internet/Propel network is a *privilege*, not a right.

Policies:

It is the policy of Propel Charter Schools to mandate and expect that students will use the Internet/network in a responsible manner. Accordingly, the school has established a policy and procedures for the use of the Internet/network along with rules governing the behavior of students who access the Internet. Students who do not comply with the standards of behavior outlined in the student conduct and discipline plan or with the Internet/network rules below may lose their privilege to use the Internet/network and/or be subject to other disciplinary action.

Guidelines:

The Propel Charter Schools network is to be used only in a moral and ethical manner. As a user of the network, students are expected to abide by the following guidelines:

- ❑ Only licensed software may be used on the network.
- ❑ Games and personal software are not to be installed on the computers. No one shall execute a software program that has not been installed on the server by the Propel Technology Department.
- ❑ Intentionally altering the files and/or the hardware on Propel computers or mobile devices will be viewed as vandalism.
- ❑ Deliberate attempts to spread viruses through the network will be dealt with by the administration of the school as a violation of the Student Network Acceptable Use Policy.
- ❑ Unauthorized copying of school software will be considered theft.
- ❑ Each student will be provided a username and password to be used by that student to access the network. This is the only login information that a student should be using. Students shall not lend their password out to anyone else and should inform a staff member immediately if they feel their password has been compromised.
- ❑ Users are to logoff the system as soon as they are finished to prevent use under the

- ❑ wrong login information.
- ❑ There will be no distributing of threatening, obscene, or harassing messages over the network or through the printer.
- ❑ Abusive, obscene, or disrespectful oral or written language or gestures and swearing will be strictly prohibited in any digital format including, but not limited to, electronic mail.
- ❑ Students may not engage in advertising of products or services for sale or participate in "chain letters" or "pyramid schemes".
- ❑ No confidential information is to be distributed to other parties at any time. This includes reposting of information sent by another party.
- ❑ Students are not permitted to connect to networks other than those provided by the school.
- ❑ Students are not permitted to deliberately bypass the Propel Charter Schools Internet firewall by use of proxy servers or other known methods.
- ❑ **Students will follow the instructional directives of the teacher or staff member in charge at all times.**
- ❑ The illegal use of copyrighted software is strictly prohibited. Any and all damages which may occur as a result of unauthorized usage or access will be the responsibility of the user.
- ❑ The use of the network to access obscene or pornographic material is prohibited and will be dealt with as a serious breach of school rules.

XV. Social Media Policy

As a Propel student and family member you represent Propel. Even when students are not posting to social media during school hours, students must follow Propel Internet policies and these guidelines anytime you post material that could identify you or your relationship to the school or when using Web tools in the classroom or in any way related to classroom or school activities.

1. *Be aware of what you post online.* Social media venues are public. What you contribute leaves a digital footprint for all to see. Do not post anything you wouldn't want friends, enemies, parents, teachers, or future employers to see.
2. *Follow the school's policies when writing online.* What is inappropriate in the classroom is inappropriate online. Harassing, bullying, threatening and other types of inappropriate conduct is prohibited in school and online. It is acceptable to disagree with someone else's opinions, however, do it in a respectful way. Criticism should be constructive and not hurtful.
3. *Be safe online.* Never give out personal information, including last names, phone numbers, exact birth dates, and addresses. Do not share your password with anyone besides your teachers and your parents.
4. *Be careful when you link.* Linking to other websites to support your thoughts and ideas is recommended. However, be sure to read the entire article prior to linking to ensure that all information is appropriate to a school setting
5. *Do your own work!* Do not use other people's work without their permission. It is illegal to copy and paste other people's work (even parts of their work) without giving credit to that person. Hyperlink to your sources or include the web address where the information can be found.

Pictures, videos, songs, and audio clips may also be protected by law. If you don't have permission to use the images, videos, songs or other clips, don't use them.

6. *Don't be an imposter.* Do not misrepresent yourself by using someone else's identity
7. *Use appropriate writing.* Blog and wiki posts should be well written. Use proper grammar, capitalization, and punctuation. If you suggest edits to someone else's work be sure it is in the spirit of improving the writing.
8. *Tell someone.* If you find inappropriate material that makes you feel uncomfortable, or is not respectful, tell your teacher. If you cannot tell your teacher, tell your principal.
9. *Follow the rules.* Students who do not abide by Propel's policies and these guidelines will be subject to the consequences outlined in this Acceptable Use Policy.
10. *Use social media appropriately outside of school.* Speech, including but not limited to social media posts, that disrupts the school, makes a threat against a teacher or another student, or amounts to harassment will follow the same actions as described in the Major Violations sections.

General Statement

Propel Charter Schools issued email accounts are not private and Propel Schools retains the right to review, audit, intercept, access and disclose all messages created, received, or sent over the electronic mail system as necessary.

Propel Charter Schools Administration reserves the right to make random audits of the history files that record which websites students have visited.

The school is not, and cannot be, held responsible for the loss of material, accidental corruption or any other action that might affect transmission or loss of data.

Propel Charter Schools has taken all precautions to maintain safety of all users and these guidelines are written and enforced in the interest of all users' safety and effective use of the Internet.

Consequences

- Restriction of network access
- Loss of the grade
- Financial responsibility for repair/replacement of damaged items
- Suspension in accordance with school discipline code
- Criminal prosecution under appropriate state and federal laws

While teachers do their best to monitor student use of the Internet, the nature of the network makes it impossible to guarantee that students will never gain access to inappropriate areas. It is the intent that the network be used ethically for instructional activities. If we determine that a student has been using the system in an inappropriate activity, the privilege will be withdrawn.

The signature of the parent or guardian must be on file for each student *prior* to Internet access. **Access will be denied until the signature page in this Student and Family Handbook is signed by a parent/guardian and received by the school.**

XVI. Propel Internet Safety Policy

It is the policy of the Propel Schools to (a) prevent its computer network from being used to access or to transmit inappropriate material via Internet, electronic mail or other forms of direct communications; (b) prevent unauthorized access and other unlawful online activity; (c) prevent unauthorized online disclosure, use or dissemination of minors' personal identification information; and (d) comply with the Children's Internet Protection Act, 47 U.S.C. § 254(h) ("CIPA"). For specific definitions, please see an

administrator.

Inappropriate Material Access

To the extent practical, technology protection measures shall be used to block or filter access to inappropriate material on the Internet or in other forms of electronic communications. Specifically, as required by the CIPA, internet filters will be used to block any material deemed to be obscene, child pornography or harmful to minors. Subject to staff supervision technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes. 47 U.S.C. § 254(h) (5) (D).

Inappropriate Network Use

To the extent possible, steps will be taken to promote the safety and security of users of the Propel Schools' online computer network when using electronic mail, chat rooms, instant messaging and other forms of direct electronic communications. Specifically, as required by the CIPA prevention of inappropriate network use includes (a) unauthorized access, including so-called "hacking" and other unlawful activities; (b) unauthorized disclosure, use and dissemination of personal identification information regarding minors.

Supervision and Monitoring

All Propel Schools staff members shall be responsible for supervising and monitoring use of the online computer network and access to the Internet in accordance with this policy and the CIPA.

Propel will educate all students about appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and cyberbullying awareness and response. The concept of digital citizenship will continue to be discussed from Kindergarten through 12th Grade, with additional instruction focusing on research and information literacy.

The Superintendent/CEO or his/her designated representative(s) shall be responsible for developing and implementing procedures for disabling or otherwise modifying any technology protection measures.

Adoption

The Board of Propel Schools adopted this Internet Safety Policy at a public meeting, following normal public notice, on November 18, 2008 and in revised form in 2013.

XVII. Photo Permission

Photographs and videotape footage of students involved in various school related activities are often used as part of Propel's community relations. Photographs/videotapes may be used in school publications, video productions, newspapers and on television. Names of students may be placed in articles in school and local newspapers/newsletters to recognize various student achievements. "Opt-Out" photo permission forms are sent home to families at the beginning of each school year.

In accordance with the Family Educational Rights and Privacy Act (FERPA), parents/guardians/family members and students are not permitted to view internal camera footage.

XVIII. Attendance

Consistent attendance at school is not only essential for academic, social, and behavior excellence, it is also the law. It's the parent/guardian's responsibility to ensure that children attend school regularly as required by the state of Pennsylvania.

Immediately upon returning to school after an absence, students are to present a written absence note to the school office containing the dates of absence, the reason for the absence, and a parent/guardian signature. Absences for reasons of illness, funeral, medical and dental appointments, religious observance or court appearances will be considered excused.

When a student accumulates three or more days of unexcused absences, a legal written notice will be sent to the parent/guardian informing them that there has been a violation of the compulsory attendance provisions of PA School Law. Further violations can result in a citation being filed against the parent with the District Magistrate.

Students with 10 consecutive unexcused absences will be permanently dropped from the school's rolls and will not be able to return.

Students are limited to no more than 20 absences in a full school year and no more than 10 in a trimester. Both excused and unexcused absences are applicable to this total. Any absence beyond 20 days must be accompanied with a medical doctor's excuse. A student with a chronic health condition and/or other serious problem may petition for a waiver to the attendance policy.

Excused Absences

An excused absence can be defined as, but is not limited to:

1. Medical appointment verified by a medical note.
2. Illness confirmed by a medical note
3. Observance of a religious holiday.
4. Illness confirmed by a note from a parent/guardian
5. Court appearance demanded by official summons or subpoena verified by court.
6. Funeral (confirmed with a parent/guardian note).
7. Extenuating circumstances that have been approved by administration.

Unexcused Absences

An unexcused absence can be defined as, but is not limited to:

1. Any absence that is not confirmed with a parental/guardian note, medical staff note, or within the three day grace period.
2. Truancy (absence from school without verification from the parent).
3. An illness which lasts for more than three consecutive days that is not verified by a medical note.
4. Vacation days
5. Personal reasons or business.
6. Failure to attend because of transportation problems, unless transported by school bus.
7. Non-school sponsored sports activities or events.

Tardiness

Those students who are not in their seats and prepared to learn when the first class begins at 8:30 are considered tardy to school.

Students who are tardy to school **must be signed in at the Main Office by a parent or guardian.** Tardiness for reasons of illness, funeral, medical and dental appointments, religious observance or court appearances will be considered excused. All other tardies will be considered unexcused. Excessive unexcused tardies may be converted into unexcused absences and may lead to possible prosecution before the magistrate.

Early Dismissals

Early dismissals may be requested for funerals, doctor appointments, and court appearances. Such requests must be made no later than 8:30AM the morning of the requested early dismissal. Students are to present an early dismissal form to the school office listing the date, time and reason for dismissal, and including a parent/guardian signature. At the time of dismissal, the student must report to the front office to sign out of the building. Students will not be permitted to leave for an early dismissal after 3:00PM. Students will only be allowed to leave the school after phone verification of the dismissal from a parent/ guardian on the day of the dismissal. Excessive unexcused early dismissals may be converted into unexcused absences and may lead to possible prosecution before the magistrate.

Governor Wolf signed new truancy legislation into law on Thursday, November 3, 2016. The law clearly states that the purpose of Pennsylvania's truancy law is to improve school attendance and deter truancy "through a comprehensive approach to consistently identify and address attendance issues as early as possible with credible intervention techniques."

The law explicitly defines "truant" as a child subject to compulsory school laws "having three (3) or more school days of unexcused absence during the current school year. The law streamlines the definition of "habitual truancy." Under the law, "habitual truancy" is defined as a child subject to compulsory school laws "having six (6) or more school days of unexcused absences during the current school year." Therefore, a child is habitually truant once he or she accumulates six unexcused absences during the course of the school year. These absences do not need to run consecutively. A child will be considered chronically absent when enrolled for 60+ days and absent (excused or unexcused) 10% or more of the school days enrolled.

The law has "procedural" requirements that Propel Schools will abide by. The first pertains to procedures schools must follow when a child is "truant"; the second pertains to the procedures a school must follow when a child is "habitually truant." Propel Schools will notify in writing the person in parental relation with a child within ten (10) school days of the child's third unexcused absence that the child has been "truant." This notice will include a description of the consequences that will follow if the child becomes habitually truant in the future and may include the offer of an attendance improvement conference. If the child continues to be truant and incurs additional absences after this notice has been issued, Propel Schools will offer the student and parent/guardian a student attendance improvement conference.

Habitually truant children under fifteen years of age. If a habitually truant child is under fifteen (15), the Propel Schools will refer the child to either: (1) a school-based or community-based attendance improvement program or (2) the county children and youth agency (CYS) for services or possible disposition as a dependent child under the Juvenile Act. Additionally, Propel Schools may file a citation against the parent of a habitually truant child under fifteen (15) in a magisterial district court. If a habitually truant child is fifteen (15) or older, Propel Schools will either: (1) refer the child to a school-based or community-based attendance improvement program or (2) file a citation against the student or parent in a magisterial district court. If a habitually truant child aged fifteen (15) or older incurs additional absences after a school refers that child to an attendance improvement program or the child refuses to participate in an attendance improvement program, the school may refer the child to the local CYS agency for possible disposition as a dependent child. The new law defines "school attendance improvement conference" as a "conference where the child's absences and reasons for the absences are examined in an effort to improve

attendance, with or without additional services.” Propel Schools will invite the following individuals to the conference: the student, the person in parental relation to the child, appropriate school personnel, recommended service providers (e.g. case managers, behavioral health providers, probation officers, children and youth practitioners, etc.). Propel Schools will hold the conference even if the parent/guardian declines to participate or fails to attend after the school provides advance written notice and makes attempts to communicate via telephone. There is no legal requirement for either the child or parent to attend an attendance improvement conference. Propel Schools will document the outcome of any attendance improvement conference in a written attendance improvement plan. Propel Schools may not take further legal action to address unexcused absences until after the date of the scheduled attendance improvement conference has passed. Attendance improvement conferences will not be perfunctory warnings that further absences will result in legal action against the student or parent. Propel Schools will create attendance improvement plans in conformity with the overriding purposes of the law.

Propel Schools will abide by the law for the procedure when referring cases of habitual truancy to the magisterial district courts. The venue will be determined based on the location of the school in which the child is enrolled. A magisterial district court will provide notice of the hearing to the following: the school, the person in parental relation, the local CYS agency.

Burden of Proof:

At the trial with respect to the citation, the burden, at all times, is on the school to prove beyond a reasonable doubt the following:

The child was habitually truant while subject to the compulsory attendance law without “justification” This standard aligns with the definition of habitual truancy in the Juvenile Act. The Superior Court has held that the Juvenile Act places the burden on the Government to prove each of these three elements. This means that the school must prove each of these elements, including that the habitual truancy was not justified. There is no burden on a student or parent to put forth evidence that the habitual truancy was justified. Of course, a student or parent may still put forth evidence that the habitual truancy was justified. If the school fails to prove that the habitual truancy was not justified, the school cannot carry its burden.

Affirmative Defenses:

Student and parent-respondents may put forth evidence of an “affirmative defense” that justifies the habitual truancy. For example, at least one court has held that a student has a right to present evidence of her disability to justify her habitual truancy. Additionally, the law continues to permit parents to present an affirmative defense that he or she took every reasonable step to ensure the child’s attendance at school. Affirmative defenses must be proven by a preponderance of the evidence.

Relevant evidence: The law explicitly states that, at sentencing, the judge must permit the school, parent, or student to present relevant information that will assist the judge in making an informed decision regarding the appropriate sentence. This is important because, the law affords considerable discretion to local judges in determining the most appropriate penalty in conformity with the purposes of the law.

Potential Penalties: The law states that a person convicted of habitual truancy may be fined: (1) up to \$300 per offense, with court costs, for the first offense; (2) up to \$500 per offense, with court costs, for the second offense; and (3) up to \$750 per offense, with court costs, for a third and any and all subsequent offenses. The law defines “offense” as “each citation filed under Section 1333.1 for a violation of the requirement for compulsory school attendance regardless of the number of unexcused absences averred in the citation.” The law states that a court may jail a parent/guardian who fails to pay a fine or completed court-ordered community service for a period not to exceed three days in any one case. The failure of a student to comply with a fine or costs associated with court must not be considered a “delinquent act” under the Juvenile Act. Under the law, if a parent or student is convicted a second time for habitual truancy within three years, the court must refer the child to CYS for services or possible disposition as a

dependent child under the Juvenile Act. Judges have the discretion on whether to send the Department of Transportation a certified record of a student's conviction for license suspension. Where a student's license has been suspended, he or she may seek to have his or her eligibility restored by providing DOT with a form that indicates that (1) the child has attended school for a period of at least two months after the first conviction or four months after the second conviction without an unexcused absence or tardy; or (2) is subject to exception to the compulsory school attendance law; or (3) has graduated from school. The law provides that students who have been convicted of violating the compulsory school attendance laws and had their licenses suspended may apply for an occupational limited license pursuant to 75 Pa.C.S. § 1553 in order to get to and from work or school. Thus, even a student whose license has been suspended may drive to school if he or she applies for and receives an occupational limited license. This removes a potential barrier to school attendance. The law states that a child who has been convicted of habitual truancy may apply for an expungement. The court must grant a child's application if (1) the child has earned a high school diploma, a Commonwealth secondary diploma, or another PDE-approved equivalent, or is subject to an exception to compulsory school attendance and (2) the child has satisfied any sentence imposed by the court with respect to the conviction, including payment of fines and costs. If a court grants an expungement application, the court must also order DOT to expunge all administrative records related to the convictions. Courts should make students aware of the opportunity to seek an expungement throughout the dispositional process.

XIX. Transportation

Propel Schools does not provide transportation to and from school. The school district of residence is responsible for providing transportation. The law requires school districts to provide transportation to resident students attending a Propel School "on such dates and periods that the charter school is in regular session" if: The charter school is located within the school district or the charter school is located not more than ten miles by the nearest public highway beyond the school district boundary. The law allows a school district to ask a child, regardless of age, to walk up to a mile and a half to a bus stop or school. The mile and a half is measured by public roads and does not include any private lane or walkway of the child's residence. All questions and concerns about assigned routes, bus stops, and/or any bus grievance out of the realm of Propel Schools control should be directed to the resident bus company.

Any change to daily in transportation must be made no later than 8:30AM the morning of the request. The appropriate forms must be submitted to the main office. For example, if a student is not taking the bus home and is getting picked up by an authorized friend/ relative the office must be notified that morning in writing.

Students who take a school bus are expected to act responsibly and respectfully at all times. Every student is charged with the responsibility of proper school bus behavior and the knowledge that pupil transportation is a privilege. Students may be denied the privilege of being transported to and from school or other school related activities. Parents/guardians are responsible for supervision until such time as the child boards the bus in the morning and after the child leaves the bus at the end of the school day. Once the child boards the bus, and only at that time, does he/she become the responsibility of Propel Schools and the bus company. In cases that students do not conduct themselves according to the bus expectations and expectations outlined in this handbook, instances will be brought to the attention of the building principal. As Propel Schools knows the importance of students being present in school and to prevent the loss of the bus privilege, the schools take a number of measures to facilitate responsible and respectful behavior, including but limited to:

The procedures and policies in the Student and Family Handbook apply whenever a student is on a school bus.

- The Principal or his/her designee reviews expectations for appropriate bus behavior at all Family Orientations.
- Classroom teachers review expectations for appropriate bus behavior.
- A staff member meets each bus every morning to ensure appropriate student behaviors with the bus driver.
- A staff member contacts any parent or guardian whose child had failed to act responsibly and respectfully on the bus and imposes the appropriate consequences for the misbehavior.

Bus Regulations and Expectations:

- Be at the bus stop 5-10 minutes prior to the scheduled time.
- Parents/guardians are responsible for supervision of students before boarding and after departing from the bus.
- Parents/guardians are NOT permitted to board a school bus. Only those people who are authorized by the driver are permitted to be on the school bus. Please reference Pennsylvania's unauthorized bus entry statute
- Cross in front of the school bus when crossing a street.
- Keep buses clean, sanitary, and orderly.
- Obey bus drivers/monitors, as they are in full charge of buses and pupils while in transit.
- Always ride seated in an assigned seat facing the front of the bus.
- Never cause damage to the school bus, and report anything noticed to the driver. Any student disfiguring or mutilating a bus will be required to pay for the damage, and denied further use of buses.
- Never get off the bus at any stop other than your assigned bus stop, unless you have written permission from your parent and the bus driver.
- Never fight, scuffle, or incite any disturbance creating a hazard to the safety of others on the bus.
- Never use obscenities or profane language on the school bus.
- Do not extend arms or head out of the bus window at any time.

School officials will act upon referrals given by the school bus driver.

- First Referral – Bus Discipline Letter
- Second Referral – 1 day bus suspension
- Third Referral – 3 day bus suspension
- Fourth Referral – 5 day bus suspension (Parent Conference will be scheduled before the child is permitted to ride the bus.)
- Fifth Referral – 10 day bus suspension (Parent Conference will be scheduled before the child is permitted to ride the bus.)
- Sixth Referral – Loss of bus privileges for the remainder of the school year.

The above consequences are the bare minimum for each referral. School officials reserve the right to impose greater consequences depending on the severity of the situation.

XX. Criminal Activity

Propel will report to the appropriate authorities any criminal act upon suspicion that such an act has been committed. The school shall also cooperate with the authorities in the prosecution of such offenses. This applies to all stakeholders including students and parents/guardians.

XXI. Weapons Policy

Any instance of possession or suspicion of possession of a weapon; including a toy, look-alike, and imitation weapon; will be reported to the appropriate authorities. A weapon shall include, but not be limited to, any knife, cutting instrument, cutting tool, nunchaku, firearm, shotgun, rifle and any other tool, instrument, or implement capable of inflicting serious bodily injury. Propel will cooperate with the authorities in the prosecution of such offenses. Possession of a weapon will be grounds for expulsion from the school. It will be reviewed annually with all stakeholders. The school district will distribute this policy to all parents of participating Title I, Part A children annually.

Title I, Part A: School Level Parent-Family Engagement Policy

Propel Schools is dedicated to providing a high-quality education for every student. To accomplish this objective, there needs to be a strong partnership between the school and the family. Parents and families work as partners to increase student achievement and develop positive attitudes about self and school.

Teachers will keep parents and families informed of grade level learning objectives and expectations. All students will be expected to work toward mastering these objectives before moving onto the next grade level. In order for this to occur, the expectation is that parents and families attend at least two face-to-face conferences at the school where the academic, social, and emotional progress of the child is discussed.

Propel Schools has developed a written Title I Schoolwide Parent-Family Engagement Policy and School/Parent/School Compact with input from parents and families. Propel believes that the parents and families are the child's first teacher and even after entering school, the continued involvement of the parents and families is critical to the success of the child while in school. In order to accomplish this goal, all parents and families will receive a copy of the Parent-Family Engagement Policy and School/Parent/Student Compact at the beginning of the school year, and it will be posted on the school's web-site. The policy describes the means for carrying out the following Title I parent and family engagement requirements [20 USC 6318 Section 1118(a)-(f) inclusive].

Parent-Family Engagement in the I Schoolwide Program

To involve parent and families in the Title I Schoolwide Program at Propel Schools, the following practices have been established:

- The school convenes two annual meetings each fall and spring to inform all parents and families about the Title I Schoolwide Programs, Title I requirements, and about the right of parents to be involved in the Title I Schoolwide Program.
- The school offers a flexible number of meeting times and dates for all parents and families, such as meetings in the morning or evening.
- The school involves parents and families in an organized, ongoing, and timely way, in the planning, review, and improvement of the school's Title I Schoolwide program and the Title I Parent-Family Engagement Policy and School Compact. Parents, families, and school staff meet to discuss the design, implementation, and provide feedback.
- The school provides parents and families with timely information through various modes of communication including phone calls, newsletters, emails, social media postings, and website postings.
- The school provides parents and families with an explanation of the curriculum used at the school, the assessments used to measure student progress, and the proficiency levels students are expected to meet. Parents and families are required to attend two parent-teacher conferences each year where the above information will be discussed. The information will also be discussed at the annual Title I meetings.
- If requested by parents and families, the school provides opportunities for regular meetings that allow the parents to participate in decisions relating to the education of their children.

School/Parent/Student Compact

Propel Schools distributes to parents and families a School/Parent/Student Compact. The compact, which has been jointly developed with parents, outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement. It describes specific ways the school and families will partner to help children achieve the State's high academic standards. It addresses the following legally required items, as well as other items suggested by parents and families.

- The school's responsibility to provide high-quality curriculum and instruction.
- The ways parents will be responsible for supporting their children's learning.
- The importance of ongoing communication between parents and teachers through, at a minimum, semi-annual parent-teacher conferences; frequent reports on student progress; access to staff; opportunities for parents to volunteer and participate in their child's class; and opportunities to observe classroom activities when requested and scheduled.

Parents and families along with school staff met to discuss the design implementation of the compact. Propel uses various modes of communication and holds meetings at different times to accommodate parents and families.

Propel Schools engages parents and families in meaningful interactions with the school. It supports a partnership among staff, parents, and the community to improve student academic achievement. It is the intent of this Annual Notice and policy to inform parent/guardian(s) and eligible children (i.e. students 18 and older) of their rights relevant to their privacy rights in the collection, maintenance, release and destruction of these records as required by the **Family Educational Rights and Privacy Act (FERPA)**, 20 U.S.C. 1232g. 34 C.F.R. part 99 and the No Child Left Behind Act of 2001.

Annual notice of this policy is given on the District's website, in student agendas, in building handbooks and hard copies are available in the main lobby of the administration building.

The different categories of information maintained by the school district are as follows; educational and health records, personally identifiable information and directory information. Information known as directory information can be released without consent. Parents may opt out of this by requesting in writing to the school principal that some or all directory information not be released. In addition, photographs and/or videos may be used in newspaper articles highlighting various school activities or television coverage of school events. If you do not wish your child to be photographed or videotaped for these purposes, you must inform the district in writing.

Education Records include records directly related to a student that are maintained by Propel Schools. The Educational Records of the District may include all of the following (this list is not intended to be exhaustive): grades, standardized test results, student evaluation reports, samples of student work, records transferred from sending schools, discipline records, medical records and any other records created and maintained by the school district directly related to the student. Educational records do not include communications with legal counsel that are attorney client privileged. Educational Records do not include records maintained solely by the creator for their personal use, not shared with others. The contents of a student's educational file shall be determined by the District unless a specific parental request is made or a complaint is made, consistent with this Notice.

The District shall permit the parent/guardian(s) of a student or an eligible special education student, who is or has been in attendance in the District, to inspect and review the education records of the student upon written request. The District will comply with a written request to review records within a reasonable period of time (never to exceed 45 calendar days from the date of written request; 30 days if the student receives special education services) after the request has been made. When there are special cases and where necessary, a parental request to review records will be granted and arranged as soon as possible. Visits to review a student's records shall be arranged and facilitated by the building principal or designee, or any party selected by the District, for the purposes of security and assistance in explaining or interpreting the data. In accordance with FERPA, the District will not produce or compile documentation that does not already exist.

It is presumed by the District that both natural parent/guardian(s) of a student has authority to inspect and review the education records of the student at the school in the child's attendance area (main office) by appointment unless there is evidence that there is a legally binding instrument, or a State law or court order governing such matters as divorce, separation or custody, which provides to the contrary. A District designee will sit with the parent when the parent reviews the records in a private conference area. As part of the notice of a parent's right to access, Propel Schools has the responsibility to inform all parents of provisions affecting parental access, and request verification of any court order denying either parent access to records. In cases where the the request for access to records is made by a non-custodial parent, Propel Schools has the responsibility to verify the person's identity and notify the custodial parent of the request. If a parent seeking to deny access does not respond to the school's request within the 45 or 30 day timeframe, the school must grant the request.

1. To other school officials, including teachers, guidance counselors, nurses, and I.U. personnel within the District who have been determined by the District to have legitimate educational interests or are providing instruction or services to students. The District has determined that all school employees involved in the direct supervision of a student (academic or non-academic) (including support staff) have a legitimate educational interest in academic and health related student information if the information is necessary to ensure appropriate fulfillment of their professional duties and to ensure the health and safety of the student.
2. To officials of another school or school system or post-secondary schools in which the student seeks or intends to enroll, subject to the requirements set forth in 99.34. Parents may request a copy of the record sent.
3. To appropriate parties in a health or safety emergency, subject to the conditions set in 99.36, if knowledge of the information is necessary to protect the health or safety of the student or other individuals.
4. Information designated by the District as Directory Information.
5. Generally, schools must have written permission from the parent/guardian or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
 - Specified officials for audit and evaluation purposes
 - Appropriate parties in connection with financial aid to a student
 - Organizations conducting studies for or on behalf of the school
 - Accrediting organizations
 - To comply with a judicial order or lawfully issued subpoena

When providing records to authorized third parties, the District will make a reasonable attempt to notify the parent/guardian(s) of the student or the eligible student of the transfer of the records at the last known address of the parent(s)/guardian(s) or eligible student. Per state law, the District will not provide any notice of transfer of records of a student to a school in which a student seeks or intends to enroll.

Under federal and state law, Propel Schools will maintain a list of all persons who have requested or obtained access to personally identifiable information contained in the student's educational record. The list will include the name of the party making the request, the basis upon which the party claims the right to access the information, and the date the request was made. The list will be available to the student's parent/guardian upon request.

The District maintains student records in the individual Propel buildings. Special education student records, student health records, and 504 student service plans are kept in separate locked files in the individual schools until the time when the student is no longer active. Once a student becomes inactive in Propel their records are transferred to a locked storage space.

PLEASE NOTE: PROPEL SCHOOLS MAY DESTROY RECORDS UNDER THE FOLLOWING CIRCUMSTANCES AND TIMELINES

- C. **Notice of destruction of these records is provided annually via this publication.** Educational records of a student are longer needed by the District to provide educational services at the end of one year following a student's graduation from the District. A parent/guardian may submit a written request for the destruction of all education records at that time.

Amendment of Education Records

A Parent/guardian or eligible student has the right to request amendment of a student's educational file if it is believed that any information is inaccurate, or in violation of a student's rights. The educational agency shall decide within a reasonable time whether to amend the record. If the school district decides not to amend the educational record it shall notify the parent/student of the right to and arrange an informal hearing. The hearing will be conducted by an official of the District without an interest in the outcome, who will be either the Director of Pupil Services or their designee. The parent may present relevant evidence. The District will issue a written decision based on the hearing. Informal inquiries may be sent to: ferpa@ed.gov or ppra@ed.gov. All Complaints will be investigated and responded to in writing within a reasonable period of time. SCREENING AND EVALUATION

Propel Schools has a three-part screening process in place that identifies any student who may need special education.

LEVEL 1: Review of Group-Based Data

The building principals, general education teachers, and resource teachers review enrollment information, academic and health records, and results from group-based tests such as Dynamic Indicators of Basic Early Literacy Skills (DIBELS), Measure of Academic Performance Assessment (MAP), Developmental Reading Assessment (DRA), 4- Sight Assessments, and the Pennsylvania System of School Assessment (PSSA). For incoming kindergarten students, results from a kindergarten readiness screening are examined. Data gathered through a thorough review of records may prompt a referral for screening of a child for special education.

LEVEL 2: Review of Hearing, Vision, Motor, Speech and Language

As prescribed by Section 1402 of the Pennsylvania school code, Propel Schools routinely conducts health screenings for kindergarten (K) through 12th grade students and new students without history of recent exams: Vision (Gr. K-12); Hearing (Gr. K-3, 7, & 11 and any student with a known history of hearing loss and ungraded students); Mandated Physical Exams (Gr. K or 1, 6, and 11); Dental Screenings (Gr. K or 1, 3 and 7); Scoliosis Screening (Gr. 6 & 7); and Body Mass Index (BMI) Screening (Gr. K-12). Speech and language skills are screened in kindergarten and upon referral to the speech pathologist. Gross motor and fine motor skills, academic and social-emotional skills are assessed by the general education

teachers, special education teachers, and support staff on an ongoing basis. Specified needs from all of these screening sources are noted within the child's official file, discussed with parents and, and when appropriate, referred to the Response to Intervention and Instruction Team (RTII) which meets monthly to conduct various on-going screening and to develop interventions

LEVEL 3: Response to Intervention and Instruction Team (RTII Team)

RTII is a group process aimed to maximize individual student success in the regular classroom, consider barriers to learning, and to serve as a screening process for students who may be in need of special education services. RTII is a positive, team based process which uses intervention techniques to help remove educational, behavioral or affective stumbling blocks for all students in the regular classroom. RTII program runs from kindergarten through grade 12. Referrals for RTII may be initiated by the parent, classroom teacher or any staff member. RTII includes general education teachers, special education teachers, math coach, literacy coach, guidance counselors, behavior coaches, and administrators.

RTII Process:

1. Identify the student's needs for academic and behavioral support and identify the strategies that have been tried within the classroom.
2. Determine more specific interventions to be implemented
3. Implement the interventions
4. Determine if the interventions are addressing the student's needs
5. If the interventions work, continue the interventions
6. If the interventions do not work, determine if the interventions need more time to be implemented or refer the student for a multidisciplinary evaluation (MDE)

Parents or guardians may request that their child be screened or evaluated for special education services. Requests for screening or evaluation should be made in writing and directed to the attention of Director of Pupil Services, Propel Schools, 3447 East Carson Street, Suite 200, Pittsburgh, PA, 15203.

Parent or guardians should request an evaluation for special education services if their child demonstrates warning signs of a developmental delay.

XXVII. Services for School Age Students with Disabilities

Propel Schools provides a free, appropriate public education to students with disabilities according to state and federal rules. To be eligible, the child must:

- Be of school age.
- Have a disability and be in need of specially designed instruction.
- Meet eligibility criteria for one or more of the following physical or mental disabilities as set forth in the Pennsylvania State Standards: autism, deaf-blindness, blindness, visual impairment, emotional disturbance, specific learning disability, other health impairment, traumatic brain injury, and speech/language impairment, orthopedic impairment, hearing impairment, deafness, multiple disabilities or mental retardation.

If a student is found eligible for an Individual Education Plan (IEP) according to state and federal law, the following services are designed to meet the needs of eligible students with disabilities:

- ❑ The annual development of an individualized education program (IEP).
- ❑ A triennial multidisciplinary re-evaluation for students with disabilities (except for those students

with Intellectual Disabilities where evaluation remains biennial).

- ❑ A range of supports for students from itinerant level to supplemental level to full time level special education support within the district or placement in a full-time special education disabilities class outside of the regular school.

The extent of special education services for students with disabilities and the location for the delivery of such services are determined by the parents and the district staff at the IEP team meeting and are based on the student's identified needs and abilities, chronological age and the level of intensity of the specified intervention. The district also provides related services, such as, physical therapy, occupational therapy and assistive technology (not an exhaustive list) if they are required to enable the student with disabilities to derive educational outcomes.

Prior to initiation of services, parents of a student with disabilities are presented a "Notice of Recommended Educational Placement/Prior Written Notice" (NOREP) with which they agree or disagree. If parents agree to the program outlined by the multidisciplinary team and the parent signs the NOREP, then the program is implemented for their child. If parents disagree with the program being recommended, they have the right to request IEP facilitation, mediation and/or a due process hearing. Parents are issued their "Procedural Safeguards" which outlines in detail their legal rights as a parent of a child identified as having a disability.

Services for Protected Handicapped Students

Propel Schools will provide to each protected handicapped student without discrimination or cost to the student or family those related aids, services or accommodations which are needed to provide equal opportunity to participate in and obtain the benefits of school programs and extracurricular activities to the extent appropriate to the student's abilities. To qualify as a protected handicapped student, the child must be of school age with a physical or mental handicap which substantially limits or prohibits participation in or access to an aspect of the school program.

Services for protected handicapped students are distinct from those applicable to disabled students enrolled in special education programs. Protected handicapped students fall under Pennsylvania's Chapter 15, sometimes known by its federal name, Section 504 (of the 1973 Rehabilitation Act). In contrast, students with disabilities who qualify for special education services are covered by regulations contained in Pennsylvania's Chapter 711. While both Chapter 711 and 15 provide services to students, there are technical differences between the two. Additional information about evaluation procedures and provision of services to protected handicapped students is available by contacting, Director of Pupil Services, Propel Schools, 3447 East Carson Street, Suite 200, Pittsburgh, PA, 15203.

XXIX. Propel Schools Anti-Bullying Policy

Introduction

Propel prohibits acts of harassment or bullying (including cyber-bullying. See full cyber-bully policy on Propel's website). In order for the students of Propel to achieve high academic standards, it is necessary that the buildings be a safe and civil environment. Harassment or bullying, like any other disruptive or violent behavior, is conduct that disrupts a student's ability to learn as well as the learning of others. Demonstration of appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment or bullying of any kind is expected of administrators, faculty, and staff as they provide positive examples for student behavior.

Harassment or bullying is any gesture or written, oral, graphic, or physical act (including electronically transmitted act) that takes place on school property, at any school sponsored activity, or in a school vehicle and is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression; a mental, physical, or sensory disability or impairment; or by any other distinguishing characteristic. *Harassment or bullying* includes any gesture or written, oral, graphic, or physical act (including electronically transmitted act) that takes place off school property if such act causes a hostile environment on school grounds.

Propel encourages students who have been subject to bullying or harassment to promptly report such incidents to designated employees in writing and as listed in this policy. All complaints of harassment or bullying shall be investigated promptly, and corrective action shall be taken when allegations are substantiated. Confidentiality of all parties shall be maintained to the extent possible, consistent with Propel's legal and investigative obligations. This policy also prohibits (a) retaliation against anyone who in good faith reports behavior prohibited by this policy; and (b) intimidation of any witness or party who participates in an investigation.

This policy applies to students, employees and third-parties (such as vendors, independent contractors and members of the general public) and covers incidents that result in the bullying or harassment of Propel students regardless of whether the incidents themselves occur on school property.

Propel's Superintendent or his/her designee is Propel's Compliance Officer for purposes of this anti-bullying policy. The Compliance Officer shall publish and disseminate this policy and complaint procedure at least annually to students, parents/guardians, employees and the public. Such communications to students, parents/guardians and the public shall include the position, office address and telephone number of the Compliance Officer. This policy, its complaint procedures and the Compliance Officer's contact information shall be available on the Propel Schools website.

Propel officials must explain that this policy applies to all applicable acts of harassment and bullying that occur on school property, at school sponsored events, on a school bus or as a result of a student's association with the school. The Superintendent shall develop an annual process for discussing the policy on harassment and bullying with students and staff.

Contact information for the Compliance Officer and for the building principals appears in Attachment A of this policy.

All other members of the school community, including students, parents, volunteers, and visitors are encouraged to report any act that may be a violation of this policy. Reports may be made anonymously, but formal disciplinary action may not be based solely on the basis of an anonymous report.

COMPLAINT PROCEDURE

Step 1 – Reporting

The principal and/or the principal's designee also are/is responsible for conducting a prompt, thorough, and complete investigation of each alleged incident. The building principal or his/her designee shall...

1. Inform the complaining party of the right to file a complaint and the complaint procedure.
2. Inform the complaining party if s/he is a student that s/he may be accompanied by a parent/guardian during all steps of the complaint procedure.
3. Notify the complaining party and the accused of the progress at appropriate stages of the procedure.
4. Refer the complaining party to the Compliance Officer if the building principal is the subject of the complaint.

A list of building contact information is available in Attachment A of this policy and on the Propel Schools website. Students and parents will be provided with the names of their building principals before or at the beginning of the school year. If the building principal is the subject of a complaint, the complaining party or the reporting employee shall report the incident directly to the Compliance Officer. In cases in which the alleged victim may be in danger or his/her ability to participate fully in the educational process may be seriously impaired, the Compliance Officer or his/her designee may take interim action (consistent with state and federal law) to keep the alleged victim from his/her alleged cyber-bully. Such action may include parent contact, removal from class, loss of privileges, detention, or suspension of the alleged cyber-bully. **REPORTS OF ALLEGED INCIDENTS MUST BE MADE NO LATER THAN SIXTY (60) DAYS AFTER THE ALLEGED INCIDENT OCCURRED.**

Step 2 – Investigation

The investigation may consist of individual interviews with the complaining party, the accused, and others with knowledge relative to the incident. The investigator may also evaluate any other information and materials relevant to the investigation. Both the alleged victim and the alleged cyber-bully will be given the opportunity to present witnesses and other evidence. The investigator will use the preponderance of evidence standard to determine whether this policy has been violated. That is, a violation will be found if the complainant or victim presents evidence establishing it is more likely than not that the prohibited conduct occurred. The obligation to conduct this investigation shall not be negated by the fact that a criminal investigation of the incident is pending or has been concluded. The investigation is to be completed within three (3) school days after a report or complaint is made. Any reasonable delays (e.g., the unavailability of witnesses or parties due to illness) will be noted in the investigative file, and the investigation will be completed as soon as possible following the delay.

Step 3 - Investigative Report

The building principal (or other person conducting the investigation) shall prepare a written report within fifteen(15) days, unless additional time to complete the investigation is required. Any reason for additional time in which to complete the report will be noted in the investigative file. The report shall include a summary of the investigation, a determination of whether the complaint has been substantiated as factual, whether it is a violation of this policy, and a recommended disposition of the complaint. Findings of the investigation shall be provided in writing within five (5) school days to the complaining party, the accused and the Compliance Officer.

Step 4 – Action

If the investigation results in a finding that the complaint is factual and constitutes a violation of this policy, Propel shall take prompt, corrective action to ensure that such conduct ceases and will not recur. Victims of substantiated bullying claims will be offered counseling and other resources consistent with the circumstances of their charges. Some acts of bullying may be isolated incidents requiring Propel to respond appropriately to the individual committing the acts. Other acts may be so serious or part of a larger pattern of bullying that require a response either at the classroom, school building, or school district level or by law enforcement officials. Disciplinary action shall be consistent with the employee handbook, Student and Family Handbook, Board policies, Propel procedures, applicable employment agreements, and applicable law.

Consequences and appropriate remedial actions for students who commit acts of bullying range from positive behavioral interventions up to and including suspension or expulsion. In addition, bullying using Propel technology violates the Internet Policy and subjects the student to discipline as set forth in the policy. Employees will be disciplined consistent with the findings and the employee handbook.

Independent contractors found to be in violation of this policy may have their agreements terminated or may be debarred from transacting business with Propel. Other third party actors may be prohibited from participating in Propel activities. Reprisal or retaliation against any person who reports an act of cyber-bullying is prohibited. The consequences and appropriate remedial action for a person who engages in reprisal or retaliation shall be determined by the administrator after consideration of the nature, severity, and circumstances of the reprisal or retaliation. False accusations of cyber-bullying are prohibited. The consequences and appropriate remedial action for a person found to have falsely accused another of cyberbullying may range from positive behavioral interventions up to and including suspension or expulsion. Consequences and appropriate remedial action for a Propel employee found to have falsely accused another of an act of cyber-bullying shall be discipline in accordance with Propel policies and procedures. Prevention and intervention techniques to prevent cyber-bullying and to support and protect victims shall include appropriate strategies and activities as determined by the building principal or his/her designee.

Appeal Procedure

1. If the complainant is not satisfied with a finding of no violation of the policy or with the corrective action recommended in the investigative report, s/he may submit a written appeal to the Compliance Officer within fifteen (15) days.
2. The Compliance Officer shall review the investigation and the investigative report and may also conduct an additional reasonable investigation.
3. The Compliance Officer shall prepare a written response to the appeal within fifteen (15) days of receipt. Copies of the response shall be provided to the complainant, the accused and the building principal (or other person) who conducted the initial investigation.

This Policy will be distributed by the Compliance Officer or his/her designees at the beginning of every school year to all Propel staff, students, and parent(s) or legal guardian(s). The policy will also be published on Propel's website.
